Giuspina Esposito was sworn in.

Our side yard is our backyard and we are trying to make it into a traditional back yard because we don't have one. We would like to put a 12 foot round pool 9.69 feet from the sidewalk. If we move the pool we would be blocking our garage or our AC units and if we put it to close to the garage teenagers could jump off our garage roof into the pool. We are also trying to keep curb appeal so we put up a wall and would like to put large planters on top with shrubbery to give privacy. I want this to be safe.

Have you considered a fence? How?

From house westerly direction and the longest run that runs along Columbia blvd. back to garage.

Applicant consents to change.
